

Visitor's safety guide

Welcome to Circulation's recycling plant!

If you are dropping off or picking up a load, please identify yourself by SMS at the Helsinki, Vantaa and Järvenpää plants before weighing. At the Mäntsälä plant, identify yourself by calling the plant's customer service number.

Otherwise, contact the customer service number of the plant:

Helsinki: 050 551 0120

Järvenpää / Lahti / Mäntsälä: 050 538 11 00

Vantaa: 040 966 1411

General instructions in case of fire

1. **Save** those in danger and warn others
2. **Extinguish** the fire if possible
3. **Alert and guide**, emergency number 112
4. **Contain** the fire if necessary
5. **Start** first aid if necessary
6. **Prevent** further damage

Traffic and movement within the plant

Movement around the plant area is allowed for loaders and pickers under the guidance of the weighing staff. Other movement is only permitted with or with the permission of the contact person. Parking is only permitted in marked parking areas, which may be accessed as directed by the contact person or the weighbridge staff.

Machinery has the right of way. For the rest, general traffic rules apply within the plant. The maximum speed limit is 20 km/h. Travel is at your own risk.

Watch out for moving vehicles in the area. When driving in the area, use general caution and follow the instructions given. Avoid idling.

A safety vest and a helmet must be worn on the outdoor areas outside the vehicles. Also wear other visitor equipment and personal protective equipment as directed by your contact person. Bring your own safety shoes if you have them.

Exit security

Identify and note the location of exit routes and assembly points designated by your contact person.

Using the phone and camera

Avoid using the phone when moving around the plant. If necessary, stop in a safe place to make a call. Use of headphones must not obstruct the hearing of ambient sounds.

Photography and video recording on the plant is prohibited without permission.

Smoking

Smoking is prohibited throughout the facility, except in designated smoking areas. This also applies to work equipment and cars.

Fire making

No fires are allowed anywhere on the plant other than in the designated smoking area.

Safety observations

Everyone on Circulation Ltd.'s plant area is asked to report accidents, danger situations, near misses and other safety observations to their contact person.
